

## **Downtown Construction Activities**

***Proposed work activities for the week of July 4<sup>th</sup>, 2021***

- The contractor at the Generals Bridge project will begin installing new masonry veneer around the bridge plinths and begin preparing the area on either side of the roadway for the future sidewalk.
- At the McConville Way project the contractor will finish construction of the streetscape aside the new roadway. The streetscape work includes the continued installation of brick pavers, bike racks, wooden benches, trash receptacles, light pole bases, catenary lights (alleyway), and roadway signage. At the future pocket parks, the contractor will finish sealing paver joints and sweeping in polymetric sand between brick pavers. In addition, the contractor will finish placing the pavement markings along Parkingway, Granite St, Cliveden St, the Messina Lot, Walter J Hannon Parkway, and McConville Way. During the time of the pavement marking installation there will be temporary detours of these roadways.
- At the old 100 Parking Way site the contractor will finish install of pavement markings and the new payment kiosk. The new parking lot remains closed during construction and there remains no parking along McConville Way and Parkingway.

(The photo on the above left shows the contractor installing new pavement along the new Generals Bridge and the above right photo shows the contractor placing concrete at the foundation of the future street name sign at intersection of McConville Way and Granite St.)
